

## Keele Street/Highway 7 Watermain Replacement and Rehabilitation

### PLANNED PROJECT WORK

As part of the City of Vaughan's 2021 Capital Program, the City is planning watermain improvements on Keele Street, from Jardin Drive (north of Highway 407 junction) to Langstaff Road. The project also includes improvements to the watermain on Highway 7 within the Keele Street intersection and along the east and west approaches.

The proposed work will involve the replacement or rehabilitation of the existing watermains within the above noted limits. The existing watermains are approaching the end of their effective service life and as a result, these metallic watermains are susceptible to cracks and corrosion which may lead to watermain breaks and service interruption.

The planned improvements also include new sidewalk and streetlighting on the west side of Keele Street, between Bowes Road to approximately 200 metres north, to interconnect the existing sidewalks.

The construction work is anticipated to commence Spring 2021.

### PRE-CONSTRUCTION FIELD WORK

In late July 2020, the City's consultants will be undertaking investigation activities for the project which include topographic and/or legal surveys, geotechnical boreholes and other field investigation works.

All roads in the project area will remain open to traffic while the field investigation work is being carried out.

### MORE DETAILS TO FOLLOW

Newsletter No. 2 will be issued prior to construction to provide further details including approximate construction start and end dates.

Thank you in advance for your cooperation. We look forward to completing these important infrastructure upgrades in your area.

For more information, please contact the Project Lead.

### LOCATIONS:

Keele Street

- Between Jardin Drive (north side of Highway 407) and Langstaff Road.

Highway 7

- From 525 metres west of Keele Street to 375 metres east of Keele Street.
